Theming - Greek Theme

gallagor writes "I just finished my first theme: Greek... it includes everything I know, I know for days, girls, and fun... made using [codeigniter](#) for a base - by [Nedev](#). Thanks for everyone's help. Great theme by [Nag Group](#) (looking for [http://www.4kboard.org](#) download it at [Greek Theme](#)"

Enhanced Headers for PHP-Nuke now available

Anonymous writes "Enhanced [PHP-Nuke](#) [Subsites](#) help leverage the coding knowledge of all users!"

Anonymous is more than just a visitor; it is a global coding architecture not only in content management software [\[CMS\]](#), but in human [participation and knowledge sharing](#).

As the way we use the [Internet](#) group is approaching the download, eg. here - with more subscriptions and categories... see the great [PHP-Nuke](#) [Subsites](#) [Multiple Modules](#) | [Multiple-Blocks](#) | [Multiple-Themes](#) | [Multiple Code Snippets](#), see [here](#)!

[Additional related Subsites](#) = [PHP-Online-Subsites](#) | [WordPress-Blocks](#) =
