#### Contents

Errata for the print version (not applicable to the digital version)	4
Errata for the digital version (not applicable to the print version)	3
Errata common to the print and digital versions	3
Notes on this errata document	14

This file (tlc3.err) can be found as part of the LATEX distribution and its latest version is maintained on the LATEX project site at https://www.latex-project.org/help/books/tlc3.err where you will also find extracts of the book.

The first column in the table shows the page number of the errata entry. Superscript numbers in the first column refer to the printed revision in which this entry was corrected (s indicates a correction in the sources only). The second column gives the precise location (negative line or paragraph numbers are counted from the bottom of the page). The third column shows the first finder of the problem.

You can customize this list to only show errata related to the printing or digital edition you own by changing the configuration in the file tlc3.cfg.

#### To Err is Human — Bug Contest

Any mistake found and reported is a gain for all readers of our book. For this reason Addison-Wesley and the authors offer a prize (for 5 limited time periods) to the eligible person who finds the

largest number of bugs during that period (more precisely, it is a lottery among the people with the 5 top-most findings up to that point). A person can receive at most one prize, ever; errors found by any of the authors do not count.

Each prize is a free choice of any single computing book found on the Addison-Wesley/Pearson web site: https://www.informit.com (that is, no boxed sets or multiple volume offers).

As usual, the authors and publisher reserve the right to make various decisions such as whether a reported feature is an error for competitive purposes or whether similar features count as a single or multiple errors. — Good luck!

```

Due to its size the third edition of *The LATEX Companion* is printed as a two-volume set. The digital version, however, is provided as a single PDF or ePub. This means that a small fraction of the digital content differs from that of the printed version: there is only a single front matter, a single bibliography, and a single index, whereas in the printed books these are separated out. However, all versions share the main matter (down to the page numbering) so most of the errata apply to all versions, but a few only to the digital and some only to the printed version. Thus, we end up with three separate lists.

## Errata for the print version (not applicable to the digital version)

The printed books differ from the digital version in that the bibliography is split across both volumes (with a few repeats) and the front matter of each volume has its own table of contents and list of figures and tables. Therefore these parts have different page numbers and you will see similar errata entries for both print and digital differing only in that respect.

General			
		(FMi)	Text or graphics typeset in the spot color (blue) are not always perfectly aligned. This is a side-effect of the printing technology. On most pages everything is fine, but occasionally blue text in a paragraph seems to be slightly above or below the baseline or blue text in tables appears slightly misaligned horizontally. It differs from book to book (and therefore not recorded in this errata) and can't be controlled by the authors, unfortunately.
Front matter	(Part I)		
I- $ix$ $I$ - $xvii$ <sup>s</sup> $I$ - $xvii$ <sup>s</sup> $I$ - $xvii$ <sup>s</sup> $I$ - $xvii$ <sup>s</sup> $I$ - $xx$ $I$ - $xxi$	1	(FMi) (FMi) (FMi) (FMi) (FMi)	Dot leaders have been changed on all sections. formulas $\to \underline{F}$ ormulas documents $\to \underline{D}$ ocuments beyond $\to \underline{B}$ eyond Dot leaders have been changed on all sections.

## Errata for the digital version (not applicable to the print version)

Most known errors to the digital version have already been incorporated in the product as distributed, here are the remaining ones.

```
Bibliography  II\text{-}800^{\text{s}} \quad [50], \text{ l.-1} \qquad \qquad \text{(FMi)} \quad \text{Link should use https://}
```

## Errata common to the print and digital versions

The main matter is identical (also in page numbers) in the print and the digital versions. Therefore most errata entries appear in this section.

General	
---------	--

(FMi) Some corrections result in index changes. These are not tracked here; the index is always fully regenerated for new printings.

(MJo/FMi) There are a dozen occurrences of the word rôle throughout the book, which is more commonly spelled role. However, this is not wrong but is the somewhat dated form used mostly in British English. Personally, I prefer the version with accent (as does Don Knuth) so it is deliberate and will not change.

Preface
---------

*I-xlii*<sup>s</sup> para 1, l.3 (FMi) the designer of the Lato fonts  $\rightarrow$  a co-designer of the Lato fonts

#### Chapter 1 — Introduction

$I\text{-}5^{\mathrm{s}}$	para 4, l.4	(kb)	$\underline{\text{of}}$ the bugs $\rightarrow \underline{\text{with}}$ the bugs
$I\text{-}5^{\mathrm{s}}$	para 5, l.5	(kb)	not least $\rightarrow \underline{\text{but}}$ not least
$I10^{\mathrm{s}}$	para -1, l.2	(ACa)	The value should have been shown with an upright mu, using
			\qty{0.01}{\micro\metre} from the siunitx package.
$I$ -18 $^{\mathrm{s}}$	before 1.3.3	(ACa/FMi)	Add paragraph:
			There are also two sections (2.2.8 and 2.3.4) providing low-level
			background information for reference—useful when looking at existing
			code in older document class files. They are set in a slightly smaller

typeface to save space and to indicate their special nature as reference material, rather than material for daily use.

### Chapter 2 — The Structure of a LATEX Document

$I\text{-}31^{\mathrm{s}}$	para-1,l1	(BeB)	would have resulted in "# ." in the output. →
			would have resulted in " $\#\underline{\&}$ " in the output.
$I$ -34 $^{ m s}$	l1	(FMi)	Moved first line of page 35 to 34.
$I\text{-}35^{\mathrm{s}}$	l.1	(FMi)	Moved first line of page 35 to 34.
$I$ - $70^{\mathrm{s}}$	section 2.3.4	(FMi)	Add footnote: The whole section is set in a smaller font to indicate
		,	that is more a reference — helpful mainly when studying existing
			code.
$I$ -113 $^{ m s}$	listing	(FMi)	Situation is the same in the 2023 distributions; listing output updated.
$I$ -117 $^{ m s}$	l5	(BeB)	$latexrelease \rightarrow \texttt{latexrelease}$

## Chapter 3 — Basic Formatting Tools – Paragraph . . .

	I-143 <sup>s</sup> I-160 <sup>s</sup> I-163 <sup>s</sup>	exa 3-1-18 para -2, l.1 para 2, l.2	(BeB) (BeB) (FMi)	Replace in source: { peine $\rightarrow$ {peine Repeated word: keys keys $\rightarrow$ keys as we did above. $\rightarrow$ as we did in Example 3-3-14 below.
	I-163 <sup>s</sup>	para 3, margin	(FMi)	Add a marginal note: No warning if another LATEX run is necessary!
	$I$ -163 $^{ m s}$	example 3-3-14	(BeB)	Output of example misses the page numbers in acronym list $\rightarrow$ Run example 3 times (not only twice—there is no warning)
	<i>I-174</i> s	para3,l2	(BeB)	the exponent is always a power of $3 \rightarrow$ the exponent is always a multiple of $3$
!!	<i>I-177</i> °s	exa 3-3-39	(BeB/FMi)	The example doesn't really show what the paragraph above discusses because it was shortend to fit the available space on the page. Use

\newcommand\sample[1]{\textnormal{\noindent #1:} The limit is  $\qty{30}{\mbox{kmh}}$  not  $\qty{50}{\mbox{kmh}}$ .\par}

so that both text and math usage of \qty are compared in the example.

<i>I-182</i> <sup>s</sup>	para 4	(BeB)	Add sentence: The command \textcquote is used in Example 16-5-50 on page II-535.
Chapter 4	1 — Basic For	matting To	$- Larger \dots$
$I - 253^{\rm s}$	para 2, l3	(YEi)	Move comma: and thmtools packages and typed-checklist, helps you write → and thmtools packages, and typed-checklist helps you write
$I$ - $323^{\mathrm{s}}$	Table 4.4, left column	(BeB)	Typo: Assembler ( $\underline{N}$ otorola68k, x86masm) $\rightarrow$ Assembler ( $\underline{M}$ otorola68k, x86masm)
I-344 <sup>s</sup>	exa 4-3-16	(CAR/FMi)	Use \NewDocumentEnvironment instead of \DeclareDocumentEnvironment because it is always better to check that the declaration is not accidentally overwriting an existing environment.
Chapter 5	5 — The Layo	ut of the Pa	age
$I\text{-}365^{\mathrm{s}}$	paras -3 to -2	(YEi)	Add/replace: package and others. \par The fifth section then → package and others. In the fifth section we cover "static" page decorations such as watermarks. \par The sixth section then
<i>I-368</i> <sup>s</sup> <i>I-386</i> <sup>s</sup>	table 5.1 exa 5-3-1, l.7	(YEi) (EOI)	A better approximation for b5paper is $6\frac{7}{8} \times 9\frac{7}{8}$ Change: paragraph over two pages. $\rightarrow$ paragraph over three pages. Reason: The third page contains just the word "pages." (which would be page 8) is not shown.
I-389 <sup>s</sup> I-393 <sup>s</sup>	syntax box -1 Documentation of \IfMarksEqua	` /	\right \right \rightark \r
Chapter 6	6 — Tabular N	/Iaterial	
<i>I-489</i> °	para 1, l.3	(EOI)	Change: to additionally load longtable or supertabular <u>prior</u> to → to
<i>I-490</i> °	footnote	(EOI)	load longtable or supertabular in addition to Replace footnote text with → If you forget this, you either get an empty cell or, if parts of the text can be interpreted as a value, a somewhat "random" number and the rest is dropped. For example, 31 December 2022 would result in "31.00", which is probably not desired.
<i>I-491</i> s	exa 6-7-22, Booklet 114	(EOI)	Change: remove '0,00' in 'actual' column for item 'loss'. (This is not really an error, but it looks better—and is consistent with the 'actual' item of 'profit' for Booklet 113.)
<i>I-494</i> s	para -2, l.3	(MRu)	Use plural: The allowed keys are $\dots$
Chapter 7	7 — Mastering	g Floats	
<i>I-520</i> ° <i>I-612</i> °	para 4, l.3 para -2, l.1	(EOI) (EOI)	Change: For <u>a</u> example $\rightarrow$ For example Change: up <u>do</u> several $\rightarrow$ up to several
Chapter 8	3 — Graphics	Generation	and Manipulation

in  $\underline{\text{light blue}} \rightarrow \text{in } \underline{\text{red}}$ 

 $I-619^{\mathrm{s}}$  para -2, l.2

(FMi)

```
I\text{-}619^{\text{s}} exa 8-4-7 (FMi) The example uses left_color=red!20 but this is not really visible if the red is turned into some gray value in the book (which is then made even lighter through !20). So it is better to start from full red, i.e., → left_color=red instead. 

I\text{-}644^{\text{s}} syntaxbox for \( \text{BeB} \) \( \text{foreach} \) \( \text{foreach} \) (EOI) Correct hyphenation: stan-dalone \to stand-alone
```

#### Chapter 9 — Font Selection and Encodings

```
I-688<sup>s</sup>
         para -2, l. 1
                            (BeB)
                                            acronym PSNFSS not explained: PSNFSS \rightarrow PostScript New Font
                                            Selection Scheme (PSNFSS)
I-669^{\rm s}
                                            Changed line breaks in example.
         exa 9-3-11
                            (FMi)
I-681 s
         para 2, l.1
                            (BeB)
                                            Missing space: The problem \rightarrow The problem
I-708^{\rm s}
                                            Situation is the same in the 2023 distributions; listing output updated.
                            (FMi)
         listing
I-726<sup>s</sup>
                                            Add word: more than hundred \rightarrow more than <u>one</u> hundred
         para 4, 1.5
                            (MRu)
I-759^{\rm s}
                                            in the range of 0000 to 00FF \rightarrow in the range of 0000 to 007F
         1.1
                            (BeB)
I-797^{\rm s} exa 9-6-3
                            (BYu/FMi)
                                            This example may fail with XATEX because of a deficiency in older
                                            versions of fontspec. With versions prior 2.9e one has to use the
                                            Extension key and omit the extension on the other lines:
```

```
\setmainfont{Alegreya}[
  Extension = .otf,
  UprightFont = *-Medium,
  ItalicFont = *-MediumItalic,
  BoldFont = *-ExtraBold,
  BoldItalicFont = *-ExtraBoldItalic
```

#### Chapter 10 — Text and Symbol Fonts

#### Chapter 13 — Localizing Documents

$II$ -29 $7^{ m s}$	heading	(FMi)	Chapter title not properly capitalized.
$II\text{-}307^{\mathrm{s}}$	after exa	(BeB/FMi)	Replace: On the other hand, tikz provides a library to overcome these
	13-2-5		issues. $\rightarrow$
			In the particular case of tikz, you can use \usetikzlibrary{babel}

example shows the expected behavior.

In the particular case of tikz, you can use \usetikzlibrary{babel} instead of \shorthandoff to overcome these issues for all tikz pictures of the document.

due to a bug in the package — now corrected. Thus, rerunning the

$II-308^{\mathrm{s}}$ para 2,	l.3 (BeB)	Acronyms BCP and IETF not explained:
		$BCP \rightarrow the Best Current Practice (BCP)$
		$\operatorname{IETF} \to \operatorname{the Internet Engineering Task Force}$ (IETF)
$II-308^{s}$ para 3,	l.1 (BeB)	$BPD \to BCP$
$II-319^{\mathrm{s}}$ para 2,	l.1 (BeB)	Missing word: is described A History $\rightarrow$ is described in A History
$II-332^{\rm s}$ exa 13-5	5-2, (FMi)	The keyword Harfbuzz should be spelled HarfBuzz. Both names are
and abo	ve	supported, but the recommended spelling is HarfBuzz.

## Chapter 14 — Index Generation

## Chapter 15 — Bibliography Generation

$II$ - $390^{\mathrm{s}}$	para 4, l.1	(BeB/FMi)	Replace: <u>predates the Internet</u> and so→ were developed when the Internet was in its infancy and so	
$II\text{-}391^{\mathrm{s}}$	Fig. 15.2,	(BeB)	$\overline{\texttt{\title = \{A\underline{n} \ second \ book\}}} \rightarrow \texttt{\title = \{A \ second \ book\}}$	
	bib-entry jane-2		Changes the output of example 16-7-31 on page II-560 as well.	
$II-396^{\mathrm{s}}$	in box: para 2, 1.2	(MJo)	the $\mbox{\tt MakeUpper}\underline{\mathtt{C}}$ ase ${ m trick} \to { m the} \mbox{\tt MakeUpper}\underline{\mathtt{c}}$ ase ${ m trick}$	
$II\text{-}435^{\mathrm{s}}$	code	(FMi)	$\verb \textcolor{See}  \to \texttt{\textcolor{blue}{See}}$	
<i>II-443</i> °	biblatex-mla	(BeB)	Explain acronym: $\underline{\text{MLA handbook}} \rightarrow$	
	style		Modern Language Association (MLA) handbook	
			This makes the text line on the bettern to the next news	

This moves the text line on the bottom to the next page.

#### Chapter 16 — Managing Citations

II-475 <sup>s</sup> II-513 <sup>s</sup>	para -2, l.6 para -1	(BeB) (BeB/FMi)	Figure 15.1 $\rightarrow$ Figure 15.1 on pages 382–383 Extend the explanation: is created only if the entry contains a shorttitle field and the title and shorttitle fields differ. $\rightarrow$
			is created only if the entry has been referenced (prior to typesetting
			the bibliography), contains a shorttitle field, and the title and
			shorttitle fields differ.
$II\text{-}535^{\mathrm{s}}$	footnote	(FMi)	Extend the explanation:
			you can use \mancite in front of any citation command to avoid this.
$II\text{-}560^{\mathrm{s}}$	exa 16-7-31	(FMi)	Jane Doe. An second book. 2020. $\rightarrow$ Jane Doe. A second book. 2020.

## Chapter 17 — LATEX Package Documentation Tools

$II\text{-}599^{\mathrm{s}}$	para 3, l.1	(EOI)	When creating automatically the driver $\rightarrow$ When the driver
$II\text{-}605^{\mathrm{s}}$	para 1, l.10	(CAR)	$\overline{\text{right numbers}}$ of underscores $\rightarrow \underline{\text{correct number}}$ of underscores

## Appendix A — LATEX Overview for Preamble, ...

$II\text{-}624\text{-}629^{\mathrm{s}}$		(BeB/FMi)	Replace for consistency with section 1.4: $\underline{\text{command definition}} \rightarrow \underline{\text{code}}$
			(in the various syntax boxes)
$II\text{-}629^{\mathrm{s}}$	para 1, l.3	(FMi)	$\underline{\text{An}} \text{ warning} \to \underline{\text{A}} \text{ warning}$
$II$ - $633^{ m s}$	para 2	(BeB/FMi)	Add at the end: A maximum of nine "argument" letters is supported.
$II\text{-}657^{\mathrm{s}}$	par -2, l2	(BeB)	a few that $\rightarrow$ a few <u>commands</u> that
$II\text{-}658^{\mathrm{s}}$	first item in	(BeB)	square root $\sqrt{x} \to \text{square root sqrt } x$
	the list		

	II-663	A-3-7	(MRu)	In the code, text should read either "This is the content" or "These are
				the contents".
	$II\text{-}682^{\mathrm{s}}$	para $-2, 1.3$	(FMi)	$\texttt{Harf}\underline{\mathtt{b}}\mathtt{uzz} \to \texttt{Harf}\underline{\mathtt{B}}\mathtt{uzz}$
	$II\text{-}678^{\mathrm{s}}$	para -1, l1	(BeB)	it is better use $\rightarrow$ it is better $\underline{to}$ use
	$II\text{-}687^{\mathrm{s}}$	l .1	(BeB)	Two further tests should be listed in the syntax box: \ifVTeX
				\ifAlephTeX
!!	$II\text{-}701^{\mathrm{s}}$	l. 6	(BeB)	Name changed after the book was typeset: .notif→.ifnot
	$II\text{-}701^{\mathrm{s}}$	para 3, l. 4;	(BeB)	$.\mathtt{notif}{ o}.\mathtt{ifnot}$
		para -2, l. 1;		
		and margin
